الامتحان الثاني
الفصل الأول 2009

الاسـم: _____   الرقم: _____

===

Q1) [3.5 points]: circle the best correct answer !?

1. When we resize an object in flash, we use the following icon:

   A. [icon]   B. [icon]   C. [icon]   D. [icon]

2. The handler onEnterFrame is executed when the
   A. play back head enter the current frame B. play back head exit frame 1
   C. play back head exit the current frame   D. play back head enter frame 1
   E. play back head runs

3. In flash stage you can
   A. change the width and height   B. change the resolution
   C. both A + B   D. None of the above

4. To set up a handler that runs in response to an event that affects an image element, regardless of which frames it is located
   A. Put the handler in a frame script attached to the frame
   B. Put the handler in a an image element
   C. Put the handler in a behavior attached to the image element.
   D. Put the handler in a movie script   E. None of the above

5. In script, methods and properties are related to
   A.Objects   B.Events   C.Elements   D.Pictures   E. Variables

6. Which one of the following is a property?
   A. lineTo(0,0)   B. moveTo(10,10)   C. stopDrag()   D._x

7. Which one of the following pieces of code includes a method?
   A. _root.lineTo(0,0)   B. _root.X   C. c._x=5   D._width

Q2.[3 points] Mention all the tasks that should be done in the postproduction phase of multimedia production?

1- _____   2- _____   3- _____

AUTHOR: MOHAMMED ABDUL KHALIQ DWIKAT **EMAIL**:dwikatmo@hotmail.com

Q2[3 points] What will be the output of the following code? Show vertices coordinates if you know the stage dimention is 300X300?!

```
_root.moveTo (50,50);  _root.lineStyle(3, 0x00ffFF, 100);
_root.curveTo (200,100,250,250);  _root.lineStyle(3,0xFFff00 , 100);
_root.lineTo (250,50);  _root.lineTo (50,50);
```

(0,0)

(300,300)

Q3) [4 points]:   What is the?

Purpose of using the library in flash ?

Keyframes in an animation?

Role of Multimedia Architect?

Role of Multimedia Video Specialist?

Q5.[3.5 points] You have been asked to move a circle in a path like Z letter. Explain in stepts how would you accomplish this, assuming the first step you run the flash and create a new document.

Q6.[3 points] You have a square that is converted to a button (Nam is PB) on the stage. Write the necessary ActionScript code that makes the square simulate the progress bar running automatically when the flash file starts. Hint: you can accomplish it by increasing the width(from 0 to 100), and fixing its location on the stage.
