

Building Economics, Quantity Surveying, and Cost Estimation

(Course Code: 10611471)

Term Project

(Mark: 20, weight: 20%)

(ILOs 1 (50%), 2 (50%))

Deadline: as specified in the lectures for each section

1. Project Description:

The main objective of the term project is to gain experience in quantity surveying and cost estimation for construction projects, and to apply the discussed methods and principles of quantity surveying and cost estimation on a real-life project. The project also forms an opportunity for students to be involved in a team work as an essential skill in their career life.

2. Submission requirements:

- One hardcopy of the project report (**only one report for each group**).
- CD including a softcopy of the project report and all the calculations and excel sheets.
- Similarity report generated from Turnitin. For more information see www.turnitin.com

3. Grading and evaluation:

The project will be evaluated based on the following criteria:

No.	Criteria	Mark
1	Progress report and evaluation	10
2	Arrangement of the report	2
3	Appearance of the tables	1
4	Completeness of report sections	1
5	Inclusion of all the project items	2
6	Accuracy of the results	4
7	Total	20

Hope You Success
