

Curriculum Vitae (C. V.)

Personal Data

Name: NOURI.
Given names: Bashir Mustafa Yousef.
Date of birth: 25 - 06 - 1968.
Place of birth: Awarta - Nablus - West Bank - Palestine.
Marital Status: Married (I have four children).
Nationality: Palestinian (Holding Jordanian Passport).
Languages: Arabic (Mother tongue) and English (Excellent).
Address: Department of Mechanical & Mechatronics Engineering,
Faculty of Engineering, An-Najah National University, P. O. Box 7,
West Bank, Palestine.
E-mail: bashir_nouri@yahoo.com, and bnouri@najah.edu
Phone : **Office:** (970)-9- 2345113/4/5/6 Ext: 2523
Home: (970)-9-2375030
Fax: (970)-9- 2345982
Mobile: (970)-599-437776

EDUCATIONAL BACKGROUND

1997 - 2001: Doctorate in Mechanical and Electrical Engineering (Mechatronics) -
Department of Mechanical Engineering, Katholieke Universiteit Leuven
(K. U. Leuven), Belgium. **(Obtained the Doctoral Degree with Cum
Laude).**

1996 - 1997: (GGS) Master in Water Resources Engineering, "Option Irrigation" -
Katholieke Universiteit Leuven (K. U. Leuven) and Vrije Universiteit
Brussel (VUB), Belgium.
(Obtained the Master Degree with Distinction)

1995 - 1996: (GAS) Complementary Studies in Water Resources Engineering -
Katholieke Universiteit Leuven (K. U. Leuven), Belgium.
(Obtained the Degree of the Year with Cum Laude).

1986 - 1994: Bachelor in Mechanical Engineering - Department of Mechanical
Engineering, Birzeit University, West Bank, Palestine. **(Obtained the
BSc with Very Good).**

PROFESSIONAL EXPERIENCE

Since the 1st of February, 2005: Assistant Professor. Department of Mechanical Engineering & Mechatronics, Faculty of Engineering, An-Najah National University, Nablus, West Bank, Palestine:

My work at An-Najah National University:

1- I taught the following courses:

- 1- Dynamics.
- 2- Statics.
- 3- Mechanics of Materials.
- 4- Fluid Mechanics.
- 5- Mechanical Vibrations.
- 6- Control Systems I.
- 7- Control Systems II.
- 8- Computer Control Systems.
- 9- Digital logic.
- 10- Microprocessor.
- 11- Transducers & Interfacing.
- 12- Hydraulic and Pneumatic Control Systems
- 13- Design of Mechatronic systems
- 14- Programmable Logic Controllers (PLC).
- 15- Graduation Projects (I supervised more than 20 graduation projects).
- 16- Laboratory of Vibrations and Mechanics of Machines.
- 17- Laboratory of Control Systems.
- 18- Laboratory of Transducers & Interfacing.

2-Other university activities:

1. Chairman of the department of Mechanical & Mechatronics Engineering at An-Najah National University for the academic years 2005/ 2006, 2006/ 2007, 2007/ 2008, 2008/ 2009 and 2009/ 2010
2. Internal examiner for the master thesis "Cooling of High Heat Flux Electronic Devices by Two Phase Thermosyphon System. By: Aysar Mahmoud Masoud Yasin, An-Najah National University, 2007".
3. Supervisor of the master thesis "Optimization Design of Automotive Thermoelectric Generator Based on Exhaust Gas Recovery"
4. Establisher of the Mechatronics Engineering Department: Setting all the requirements, and preparing all the studies of establishing the department including the academic plan.
5. Coordinator of the Sixth Engineering Employ and Show Day Committee for the academic year 2007/ 2008.
6. Coordinator and member of several University Committees established by the university's President.
7. Member of the Engineering Faculty Committee at An-Najah National University from 2005 to 2010.
8. Coordinator of the Self Evaluation Committee of the department of Mechanical Engineering at An-Najah National University for the academic years 2006 - 2007.
9. Coordinator of the Development and Maintenance Committee of the Engineering Faculty at An-Najah National University for the academic years 2006 - 2007.
10. AND OTHERS

10/2/2002 – 31/1/2005: Assistant Professor. Department of Mechatronics Engineering, Faculty of Engineering, The Hashemite University, P. O. Box 150459, Postal Code 13115, Zarqa, Jordan.

My work at The Hashemite University:

1- I taught the following courses:

1. Transducers and Interfacing.
2. Modern Control.
3. Control Systems 2.
4. Digital Control.
5. Computer Aided Design (Computer Aided Control Systems Design).
6. Control Systems Laboratory.
7. Hydraulics and Pneumatic Control Systems.
8. Microprocessors in Mechatronics.
9. Microcomputer and Interfacing.
10. I supervised several graduation projects in the field of Mechatronics Engineering.
11. Laboratory of Control Systems.

2-Other university activities:

1. Chairman of the department of Mechatronics Engineering at the Hashemite University for the academic years 2003/ 2004 and 2004/ 2005.
2. Chairman of the Department of Mechatronics Engineering at the Hashemite University for the period 20/6/2002 – 20/9/2002.
3. Member of the Engineering Faculty Committee at the Hashemite University for the academic years 2002/ 2003 and 2003/ 2004.
4. Member of the High Education Committee at the Engineering Faculty at the Hashemite University for the year (2003/ 2004)
5. Member of the Continuous Education Committee at the Engineering faculty at the Hashemite University (for the year 2003/ 2004).
6. Member of the Scientific Research Committee at the Engineering faculty at the Hashemite University (for the year 2003/ 2004).
7. Member of the Academic Time Table at the Engineering faculty at the Hashemite University (for the year 2003/ 2004).
8. Member of 3-member graduate program committee at the Engineering faculty at the Hashemite University (Contribution: Setting the requirements of the master program: Master in Control Systems Engineering).
9. Member of the graduate program committee at the Hashemite University (Contribution: Establishing the center of Non-Destructive Evaluation (NDE) and setting the requirements of the master program of Non-Destructive Testing)
10. Member of 5-member graduate program committee at the Engineering faculty at the Hashemite University (Contribution: Setting the requirements of the master program: Master in Maintenance Management)
11. Member of the Engineering Faculty Committee at the Hashemite University for Engineering Students Summer Training (For the academic year 2002/2003).
12. Member of the Engineering Faculty Committee at the Hashemite University for Community services (For the academic year 2002/2003).
13. AND OTHERS.

My Scientific Research Experience

- 1- During my Bachelor studies (1986-1994), I have done a research in title (Flow Visualization Using Hydrogen Bubble Generator). I have designed and constructed the hydrogen bubble generator and I used the device to study the vortices and separation of flow around submerged bodies and airfoils.
- 2- During my master studies (1995-1997), I have done a research in title (Inverse Modeling of Flow in Open Channels). During this research, I have designed a mathematical simulation model to obtain the geometric dimensions and Manning roughness coefficient of an open channel by one measurement (water depth) as an input parameter. The model is successfully implemented on a river in Belgium and to study the tides phenomena in the North Sea at the entrance of Antwerp Sea Port.
- 3- During my Doctorate Studies (1997 – 2001), I have done research in title (Modeling and Control of Nonlinear Systems). During this research, I have constructed an Industrial Pneumatic Servo Positioning System. On this experimental setup, I have studied experimentally and modelled both the pre-sliding and gross sliding friction, I have modelled the chambers of a pneumatic rod less cylinder and modelled the nonlinear air flow through the orifices a 5/3 Way Proportional Directional Control Valve. Finally, I have designed controllers to the used pneumatic system, where a positioning accuracy of 50 micrometers was obtained.
- 4- During my work from 2002 up to date, I have supervised several interesting and successful graduation projects such as listed:
 - a) Design of Capacitive and Inductive Sensors.
 - b) Design and control of Electromagnetic Bearings.
 - c) Modelling and Control of a Mechatronics System (swing-up and stabilization of a pendulum).
 - d) Design and Simulation of Mobile Robot.
 - e) Design and Simulation of Pneumatic Planer Robot Arm.
 - f) Biofeedback Control of Human Brain.
 - g) Navigation Control of Mobile Robot.
 - h) Control of the Traffic Lights.
 - i) Speech Recognition and Control of Mobile Robots.
 - j) Design and Control of Fully Autonomous Security Mobile Robot.
 - k) Design and Control of Semi Autonomous Six Degrees of Freedom Robotic Manipulator.
 - l) Design of a Two Axis Auto Tracking Solar Radiation System.
 - m) Evaluation and Management of Drinking Water Supply Distribution in Nablus City.
 - n) Design and construction of a New Braille Reading-Writing Machine.
 - o) Water Desalination Using Solar Energy.
 - p) AND OTHERS.

1st of October – 30 of December 2001: Post Doctor. “Control of Pneumatic Servo Positioning Systems Which are Actuated by Two, 3-Port Proportional Directional Control Valves”. Division of Production Engineering, Machine Design and Automation (PMA), Department of Mechanical Engineering, Katholieke Universiteit Leuven (K. U. Leuven), Belgium.

August 1997 - August 2001: Researcher for the project IUAP P4/24 - Intelligent Mechatronic systems (IMechS). Belgian programme on Interuniversity Poles of attraction initiated by the Belgian State, Prime Minister's Office, Science Policy Programming, Katholieke Universiteit Leuven (K. U. L), Leuven, Belgium.

Fields of interest: Pneumatic Systems, Modelling and Identification of Nonlinear Systems, Friction Modelling, and Advanced Control. During the research several articles and posters were published.

November 1994 - August 1995: Mechanical Engineer at Kurdieh Brothers Casting and Metal Work Ltd. (Jerusalem, Shoa'fat, Anata Rd, P. O. Box 21633, West Bank)

My job was concentrated in the following:

1. Management of the quality control department, including full supervision of all production lines.
2. Designing a complete filtration unit for the Plast Furnace being used at the factory.
3. Mechanical maintenance of all the equipment and machinery used at the factory.

1992 - 1994: Teaching assistant for the course "Engineering Drawing" during three academic semesters at the Department of Mechanical Engineering, Birzeit University, West Bank, Palestine.

ARTICLE REVIEWER:

I am an articles' reviewer for ISA-Transactions (International Journal of The Science And Engineering Of Measurement And Automation). Since 2003 I have reviewed the following manuscripts:

- 1- **Manuscript ID ISAT-03-r3-035. Title:** Solution of Low-Dimensional Constrained Model Predictive Control Problems Based upon the Location of Unconstrained Optimum
 - 2- **Manuscript ID ISAT-04-r3-006. Title:** Thin-Film Thermal Conductivity Meter.
 - 3- **Manuscript ID ISAT-05-r3-025. Title:** Active vibration suppression in a suspended Fabry-Pérot cavity.
 - 4- **Manuscript ID ISAT-06-r3-007. Title:** Stability maps for digital PID control of multiple lag processes.
 - 5- **Manuscript ID ISAT-06-r3-040. Title:** Precision Coordinated Control of Multi-Axis Gantry Stages.
 - 6- **Manuscript ID ISATRANS-D-07-00075. Title:** Developing and implementing an open and non-proprietary device description for foundation field bus based on software standards.
 - 7- **Manuscript ID ISATRANS-D-08-00025. Title:** Performance evaluation of Fuzzy ANC (adaptive noise control) system for non-causal condition.
 - 8- **AND OTHERS**
-

CONSULTANCY

1. Consultant to the Accreditation and Quality Assurance Commission, Ministry of Education & Higher Education, Palestinian National Authority (<http://www.aqac.mohe.gov.ps>) for the curricula accreditation of the Undergraduate Study Program "Mechatronics Engineering" submitted by Birzeit University (File No. BZU071/BA01), August 2007.
2. Consultant to the Accreditation and Quality Assurance Commission, Ministry of Education & Higher Education, Palestinian National Authority (<http://www.aqac.mohe.gov.ps>) for the curricula accreditation of the Undergraduate Study Program "Mechatronics Engineering" submitted by Al-Azher University (File No. AZU072/BA04), September 2007.
3. Consultant to the Accreditation and Quality Assurance Commission, Ministry of Education & Higher Education, Palestinian National Authority (<http://www.aqac.mohe.gov.ps>) for the Undergraduate Study Program "Mechatronics Engineering", Palestine Technical University (Kadoorie), visit date 5/ 01/ 2010.
4. Representative of the Ministry of Education & Higher Education and a member of the standardization specialized committee of metals and its use (for the period 4/2006 – 7/2007). Standardization Department, Palestinian Standards Institution, Palestinian National Authority. The work concentrated in setting the Palestinian standards for Fire resistive doors and fire predictions equipments.
5. Design of a device used for "Detection of Organic Chemical Vapors": I have submitted a proposal for a portable, durable technology or device that would indicate the presence of 1-3 dichloropropene or chloropicrin at threshold levels of 0.05 ppm and higher in an enclosed environment. Submitted to the company entitled Innocentive, USA (<http://www.innocentive.com>). 2006
6. Research work in the field "Identification, Modeling and Control of Pneumatic Servo Positioning Systems" for the purpose of improving the FESTO industrial pneumatic servo positioning products, where 50 micrometers positioning accuracy is achieved. FESTO Company, Germany. (1997-2001)
7. Restudy and evaluation of Environmental Impact Assessment (EIA): Screening and Scoping of all the alternatives of the project "Technopolitical Alternative Strategies in Interstate Regional Development of Jordan Rift Valley Beyond the Peace" by Masahiro Murakami, M. (Consulting Engineer, Japan), Usaid I. El-Hanbali (The World Bank, USA), and Aaron T. Wolf, M. (University of Alabama, USA). 1996
8. Restudy and evaluation of Environmental Impact Assessment (EIA): Screening and Scoping of all the alternatives of the project "Natural Gas Pipeline in Bolivia from Santa Cruz to the Brazilian border through the Amazon Forest". 1996
9. Restudy and evaluation of the project "Integrated Project Design: Drinking and Irrigation Water Supply to Jakarta, Indonesia-Capital City". This project was designed and constructed with the superposition of Laboratory of Hydraulics, Delft University Netherlands. 1997
10. Study and evaluation of Environmental Impact Assessment (EIA): Screening and Scoping of all the alternatives of the proposed project "Mediterranean-Dead Sea Channel and Red-Dead Sea Channel".
11. Design of a Water Supply Network for the City of Leuven in Belgium.
12. Designing a Filter (Gas Wash Filter) for a Plast Furnace to bring the Cast Iron Plast Furnace Emissions within the Environmental Standards. Kurdieh Brothers Casting

- and Metal Work Ltd. (Jerusalem, Shoa'fat, Anata Rd, P. O. Box 21633, West Bank, Palestine. 1995
13. Designing an Industrial Layout and Product Management Plans for Abu Ein Aluminum Industry Ltd. BeitUnia, Ramalla, West Bank Palestine. 1993
-

COMPUTER EXPERIENCE (KNOWLEDGE)

1. MATLAB software with identification toolbox, control toolbox and polynomials toolbox.
2. SIMULINK software with MATLAB.
3. Computer languages: FORTRAN, PASCAL and C-Language.
4. Microprocessors and Microcomputers software architecture (assembly language and machine language).
5. PLC programming (STEP 7 and Rockwell Automation Programming)
6. MS-office : Microsoft word and Excel, Front Page, Power Point, and Visio
7. Present programs and software that are used for Water Resources and Irrigation Engineering.

RESEARCH AREAS

Areas of Active Research: Pneumatic Systems, Electromagnetic Bearings, Robotics, Modelling and Identification of Nonlinear Systems, Friction Modelling, and Advanced Control.

General Areas of Interest:

1. Renewable Energy.
2. Water Resources, Water quality and Treatment, Irrigation, Water Pollution.
3. Consultation in the field of Water Resources Engineering and Environment
4. Mechanical, Mechatronics, Automation, Control, and Bio-Medical Engineering.
5. Industrial and Academic Consultation.
6. Consultation in the field of E-Learning methods and implementation.

Current research fields

1. Modeling and control of Mechatronic Systems.
2. Manipulators and Mobile Robot Control.
3. Autotracking Solar Radiation Mechatronic Systems.
4. Water Desalination.
5. Renewable Energy.

AWARDS

Best Student Paper Award: for the paper entitled, "Modelling a Pneumatic Servo Positioning System with Friction," presented at the 2000 American Control Conference, June 28-30, 2000, in Chicago, Illinois, USA. The award is given by: The American Automatic Control Council (AIAA, AICHE, AISE, ASCE, ASME, IEEE, ISA, and SCS).

DIRECT TUITION (DOCTORAL COURSES)

Sliding Mode in Automatic Control

Organizer: The International School in Automatic Control. Place: Ecole Centrale de Lille, Lille, (France). Period: September 6 to 9, 1999.

Theory of Robot Control

Organizer: Graduated Schools in Systems and Control. Lecturers: Professors Bastin and G. Campion (CESAME, UCL). Place: Université Catholique de Louvain, (Belgium). Period: May 14 to 28, 1999.

Control, Identification and related subjects

Organizer: Prof. J. Swevers, Department of Mechanical Engineering, Division of Production Eng., Machine Design and Automation Katholieke Universiteit Leuven. Place: Department of Mechanical Engineering, Katholieke Universiteit Leuven (Belgium). Period: Academic year 1997-1998, and Academic year 1998 - 1999.

Polynomial Methods for Controller Design

Organizer: Graduated Schools in Systems and Control. Lecturers: Professors H. Kwakernaak (Twente University of Technology, The Netherlands) and M. Sebek (Academy of Sciences, The Czech Republic). Place: Katholieke Universiteit Leuven (Belgium). Period: November 6 to December 11, 1998.

Theory and Application of Fuzzy Control

Organizer: Graduated Schools in Systems and Control. Lecturers: Professors S. Yurkovich (The Ohio State Univ., Columbus, USA) and V. Wertz (CESAME, UCL). Place: Université Catholique de Louvain, (Belgium). Period: March 23 to April 3, 1998.

Vibration Control

Organizer: Graduated Schools in Systems and Control. Lecturers: Professors A. Preumont (ULB), and J. Swevers, H. Van Brussel, W. Dehandschutter(KUL). Place: Katholieke Universiteit Leuven (Belgium). Period: October 3 to 31, 1997.

Computer Aided Control Systems Design

Organizer: Department of Electrical Engineering at Katholieke Universiteit Leuven. Lecturer: Prof. Bart De Moor. Place: Department of Electrical Engineering, Katholieke Universiteit Leuven (Belgium). Period: October 1 to December 20, 1997.

Computer Aided Control Systems Design (Practical)

Organizer: Department of Electrical Engineering at Katholieke Universiteit Leuven. Lecturer: Prof. Bart De Moor. Place: Department of Electrical Engineering, Katholieke Universiteit Leuven (Belgium). Period: October 1 to December 20, 1997.
