Sharek Youth Forum, Nablus, Palestine

EXPERIENCE:

Work Experience:

An-Najah National University, Nablus, Palestine

November, 2007 – Present

- Research & Teaching Assistant at the Faculty of Information Technology
- Courses' Developer & Multimedia Specialist in the E-learning Project for An-Najah N. University
Courses: Physics, Introduction to Computer Science, Introduction to Linguistics & Management Information Systems
- Technical Assistant & Trainer at the Korean-Palestinian Information Technology Institute of Excellence
Training Courses: ASP.net, C#.net, Oracle, Graphic Designing, Visual Basic & Flash

Graduation Project:

School Management System; which consists of two integrated parts:

1. Desktop Application:
Using Visual Basic to develop a system that manages students' and teachers' data, which is stored in an Access database. The system has a component that reads barcode number from student's or teacher's cards using a normal webcam to manage their attendance to the school, also the system includes other component which sends SMS to the students' parents' mobiles (their Childs' marks, attendance and other information).
2. Web Application:
Using ASP.NET to develop a website that allow manager, teachers, parents to access and manage their specific information (*Manager*: manages teachers', students' and courses' data. *Teachers*: manage their students' and courses' data. *Parents*: Access their Childs' data).

Other Projects:

Remote Lab's Controller: Using ASP.NET and C# to develop a system that controls computers in a lab remotely from a website.

Accounting System: Using Visual Basic to develop a small accounting system.

Library System: Using C# and SQL Server database to develop a library system.

Insurance System: Using Oracle 10g to develop a small insurance system.

XO game: Using Visual C# to develop an XO game.

SKILLS:

Languages

- Arabic language : The mother tongue
- English language : Very good (TOEFL iBT 82)

Computer knowledge

Windows, Microsoft Office, Internet, E-mail, Ms.Project, Flash, Photoshop, Illustrator, Corel Draw, InDesign, E-Learning Tools (exe E-learning tools, SCORMA tools and Epistudio)

Programming Languages and Web Development:

C#.net, Visual Basic.net, ASP.net, C++, HTML, Java Script and Ajax

Databases:

SQL Server, Oracle (Database, Developer and Administration)

Personal attributes

- Ability to communicate and teamwork
- Creative, hard working, punctual and social
