## Education and training

2012, Master degree in Architectural engineering (An-Najah National University Nabus – Palestine). Thesis titled ( Architectural Education in Palestine) with excellent average (3.9).

**1998–2003** An-Najah National University Nabus – Palestine B.Sc In Architectural Engineering, with very good average (84.1%).

**1998** General Examination Board average grade, (92.1%), Secondary School, Qalqilia, West Bank.

## Graduation project

The graduation project was titled "Saving the Old Town of Nablus". The project is located at the Historic Old Town of Nablus. It aims at restoring an Ottoman Caravanserai (Khan El-Wakalah) and a soap factory located next to it. By developing and upgrading the buildings into a tourist and multi-cultural centre it was possible to attract many people and tourists to the importance of the place as well as the cultural heritage in the city.

## Summary of Master's Thesis

The study aims at promoting architectural education to make it highly competitive in the world and Arab markets. In this way, a more convenient atmosphere will be available for the Palestinian graduate in order to compete rather than just to work. The study is based on the analysis of the plan requirements at An-najah University as a case study and collecting data, statistics and questionnaires to examine if they meet the objectives of the educational process.

## Personal skills and competences
